PROFILE SUMMARY

Associate Consultant with 3.7+ years of experience building scalable, high-performance web applications for Banking and SaaS domains. Proficient in **Java, Spring Boot, GraphQL, and RESTful APIs** on the backend, and **React.js, Redux, Apollo Client, and Material-UI** on the frontend. Experienced in end-to-end feature delivery, API integration. Currently contributing to Westpac Bank's core banking platform at Infosys.

WORK EXPERIENCE

Associate Consultant — Java Developer | **Infosys** — Noida, India *Nov 2025 – Present*

Client: Westpac Bank (one of Australia's largest banks)

- Developed and maintained production-grade REST APIs in Java and Spring Boot to implement core banking business logic for Westpac Bank.
- Collaborated with cross-functional teams to debug, troubleshoot, and resolve application issues, reducing production incidents.
- Enhanced existing functionalities by identifying performance bottlenecks and implementing targeted fixes.
- Worked within an Agile delivery model, participating in sprint planning, code reviews, and daily stand-ups.
- Implemented a Kafka consumer microservice to block and activate Card.
- Developed and maintained unit tests using JUnit and Mockito for Spring Boot services, improving code coverage and ensuring reliable application behavior.

Software Engineer — Full Stack Developer | **Plevenn Technologies** — Hyderabad, India *Feb 2023 – Nov 2025*

Domain: SaaS Product Development

- Designed and developed both GraphQL and RESTful APIs using Spring Boot, and implemented them into the frontend by React.js.
- Contributed to the SaaS product architecture, improving API response times and overall application performance.
- Implemented Redis caching with Spring Cache, configuring TTL and cache eviction strategies to reduce database calls and improve API response time for frequently accessed data.
- Collaborated with product and design teams to translate business requirements into technical solutions.
- Implemented non-blocking request processing using Spring WebFlux to improve scalability and resource utilization.
- Built reusable, responsive UI components using React.js,and Material-UI, improving frontend consistency across the product.
- Integrated Apollo Client on the frontend to efficiently manage GraphQL queries, mutations, and caching.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks:** Spring Boot, React.js
- **API Development:** RESTful APIs, GraphQL
- **Frontend Libraries:** Material-UI, Apollo Client, Context API
- **Messaging and Streaming Platforms** : Apache kafka
- **Build Tools:** Maven, Vite
- **Databases:** MySQL, MongoDB
- **Domain:** Banking / Fintech, SaaS
- **Other:** API Integration, State Management, Performance Optimization, Splunk
- **Additional Expertise**: Java Concurrency, Multithreading, Redis, Docker, OAuth2, JWT, Unit Testing (JUnit), System Design, API Design, Git, Data Structures & Algorithms, Design Patterns

EDUCATION

Full Stack Software Engineering — National Institute of Information Technology *Mar 2022 – Sep 2022*

Bachelor of Technology (CGPA: 7.51) — MIET, Meerut *Jul 2016 – Jul 2020*

CERTIFICATION

- Oracle Certified Associate — Java SE 8 Programmer
